

Air Dehumidifier

Our built-in kitchen cabinetry hoods do not interfere with the kitchen furniture ensuring both a discreet and efficient way of evacuating steam and odors while retaining the grease resulting from the cooking process.

The hood can be seen on the lower part of the cabinet only.

- Air Flow 610 m³/h
- 3 fan speeds
- Electronic Control
- 5 Layers Grease Filter - removable and washable
- LED Lighting 3200k
